

CS5814 Project Proposal Review Guidelines

Summary (25%)

- What are the major claims of the project?
- How relevant is the proposal to the main theme of our CS5814 course?

Reflection (40%)

- How comprehensive is the proposal being presented?
- Is the submission significantly different from existing projects?
- Did the proposal follow the project submission guidelines and the rubric?
- Is the work technically sound?
- Is the analysis adequate?
- Does the treatment of the problem look complete? Any missing elements that can be added?

Pros/Cons (20%)

- What are its strengths and weaknesses?
- Does the paper cite and use appropriate references for tasks/models/datasets/evaluation?

Presentation Quality (15%)

- Is the quality of the presentation adequate?
- Is it well written? Any typos or grammar issues?
